

I do not believe LPFM should be allowed to take priority over current FM translator services. The radio station I listen to exclusively is K-LOVE (91.1 in Denver, Colorado), and it is my understanding it would be forced off the air if this change takes place. K-LOVE provides a great community service by letting listeners know what is going on with various organizations in the area and giving people the opportunity to lend a hand where needed. It also plays music that no other radio station in the area plays. Having positive, upbeat music to listen to during my commute to and from work is very calming for me, and I am sure for many other listeners in the area. Our community would suffer a great loss if K-LOVE is forced off the air in Denver because LPFM is given a priority over FM translator service.
